

**SNYDER'S CURATIVE PADS**  
Nos. 1-2-3

The Most Wonderful Health Restorers Known to Medical Science.

**CURE BY ABSORPTION.**

Are worn externally. The medicine is taken up by the pores of the skin, thereby reaching the seat of the disease, and curing it more effectively than any medicine taken internally could or can. We make three different kinds of pads—No. 1, 2, and 3.

No. 1—For Rheumatism, Gout, Neuralgia, Indigestion, Biliousness, Sick and Nervous Headaches, and all other diseases arising from a torpid liver. The most effective Blood Purifier extant; gives strength to the weak and restores the system. Price \$2.00.

No. 2—For Female Weakness and Irregularities, Pains in the Back, Stomach, and many other ailments to which females are peculiarly liable. It cures the system, and restores the system. Price \$2.00.

No. 3—For Kidney, Spine, and Bladder troubles, Lame or Weak Back, Stomach and Bowel troubles, and all other ailments to which the system is peculiarly liable. It cures the system, and restores the system. Price \$2.00.

Reminiscences of the Third Tennessee Cavalry.  
BY ADJUTANT WILL A. M'FEER.  
NO. XI.

AT MURFREESBORO—MEN DEAD AND DYING IN THEIR TENTS—BATTLE AT MIDDLETON.

It took time to make soldiers with soldiers habits of civilians from anywhere, but particularly of East Tennesseeans. Raised in the free, pure mountain air of East Tennessee a spirit of liberty and independence naturally grew in the men of that locality until they were hard to discipline. As an instance of this, a strict army discipline requires that soldiers coming into the presence of officers or coming in presence of superiors, to raise or take off the hat. This East Tennesseeans, as a class, would not do. It was a very rare thing to find one that would do it. In some other matters they were equally independent.

In the Annals of the Army of the Cumberland it is stated that in the battle at Stone River a brigade had made repeated attempts to carry a rebel battery, but had been repulsed each time. At length the First and Second Tennessee Infantry were sent to make another attempt. They were raised in front of the guns until they raised a wild yell and went at a charge for the guns, and succeeded in capturing them with but a small loss of men. Occurrences were frequent that the men of that locality would not obey orders. Soon after the regiment was camped in front of Murfreesboro, Col. Pickens paid General Spears a visit. Gen. Spears had had no contact with the regiment, and he ordered the Colonel to clean up his arms, to have his men fire their guns and pistols and rub them up. The Colonel came into camp a short time before sundown and told us to get our guns and pistols and shoot them off. Our camps were just in the inside of the pickets in front. We, after the style at home, got out our guns and loaded them with powder and shot, stepped off some distance and tried our skill at marks. With five hundred men shooting around in squads at night camps, made considerable racket and sounded very much like a sharp skirmish. Presently an officer with a red sash across his shoulder and around his waist came dashing at the full speed of his horse right into our midst, commanding the firing to cease and wanted to know why we meant, and calling for the commanding officer. Col. Pickens walked out of his tent. The officer wanted to know by what authority this prohibition firing, and the firing of water was done. The Colonel told him, upon which a torrent of cursing followed with a threat to report to General R. Spears, but we heard no more of it.

Now we had a fine time for us. Most of our men were fresh from home, unaccustomed to a soldier's life, and did not know how to take care of themselves. The mud in camps was about as deep as a job. The weather was very disagreeable and with mud and water, it was a task to get out of camp. The mud in camps was about as deep as a job. The weather was very disagreeable and with mud and water, it was a task to get out of camp. The mud in camps was about as deep as a job. The weather was very disagreeable and with mud and water, it was a task to get out of camp.

The ground being so full of water it was necessary to have beds of some kind, so, not knowing the effects, our men gathered cornstalks and sedge grass, piling them down on the bare ground in the tents, then sleeping on them from night to night. This material took up the moisture and soon began to rot, rendering the air foul, whereas if the beds had been made of straw or hay, the atmosphere would have been healthy. The whole atmosphere was foul too, from horses killed in battle, then being buried, and the rotten flesh giving away the stench was thrown out with the wind, forcing it into the tents. At once understand that much evil must result from these combined causes. In the Second and Third Ambulances were daily driving through camps, hauling off the dead and dying. The writer was acting as Sergeant-Major then, and he well remembers that James McClanahan, of Company "B," an old neighbor whom he had known from earliest childhood, died in his tent, and it was three days before men could be got to bury him. All who were able were on duty, while the sick could not. All the hardships and privations, as well as dangers, had been passed through thus far without murmur. On the 27th of January, 1863, Capt. John H. Yound, of the United States Army, mustered the first five companies into service. We now had a full complement of men, the following officers: Colonel, W. C. Pickens; Lieutenant Colonel, Duff G. Thornburgh; Major, Albert C. Catlett; Adjutant, John B. Minnie; Quartermaster, E. G. Gooden; Commissary, O. P. McComman; Acting Surgeon, A. L. Taylor and A. J. Taylor; Chaplain, W. M. Burnett; Hospital Steward, James N. Lyle. Companies had the following officers: Company "A," P. H. Lichtenhan; Company "B," Second Lieutenant, J. Davis; Company "C," Captain, G. D. Griffith; First Lieutenant, D. W. White; Second Lieutenant, John M. Mearse; Company "D," Captain, Shadrach Harris; First Lieutenant, John E. Revely; Second Lieutenant, Oliver Henry. Company "E," Captain, Charles W. Coker; First Lieutenant, Samuel L. Tillery; Second Lieutenant, John C. Giffin. Company "F" was not mustered but was in course of organization, and soon after was organized with, Captain, Anderson F. Carson; First Lieutenant, Jacob P. Brien; Second Lieutenant, John H. Morton.

On the 31st of January, 1863, the regiment with the Second Tennessee Cavalry made a dash on Middleton, Tennessee, capturing the rebel Colonel, Douglas, with forty-two of his men. In the light, Major Albert C. Catlett, by some means, was separated from the command and got off to himself. Here alone he met eight rebels, armed and equipped. He said he was a soldier, and they kept watch over him. He did not know where to go. There was eight of them and one of him. He could not think of tamely surrendering, and yet he knew somebody would have to do it, so he resolved to try if they would not. Presenting a revolver he commanded them to lay down their arms and surrender. They did so, supposing from his boldness that a large command was near. He found some of his own men, and they were safely brought in as prisoners of war. This was regarded as a daring and well managed expedition, being very successful every particular. Most of the men had never been under fire before, but they stood their ground

and even pressed the enemy with all the vigor of old soldiers, and it doubtless had much to do in giving confidence and force to both the Second and Third Cavalry regiments in their soldierly conduct afterwards.

**Factory Facts.**  
Close confinement, careful attention to all factory work, gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world can not help them unless they get out doors or use Hop Bitters, made of the purest and best remedies, and especially for such cases, having abundance of health, sunshine and rosy cheeks in them. None need suffer if they will use them freely. They cost but a trifle. See another column.

**MARKET REPORTS.**  
**Wholesale Grain and Produce Market.**  
KNOXVILLE, TENN., May 13, 1879.  
Several barges freighted with grain arrived during the week. Bidding on corn was spirited, causing an advance of 2 to 3 cents per bushel. Wheat was neglected and prices declined. Bacon and flour dull, but no material change in prices. We quote:  
No demand for field seeds except for German millet, worth \$1.50 to \$2.00 per bushel.  
BACON—Buying, hog round, nominal, 4 1/2 c; selling, shoulders, 4 1/2 c; sides, 6 1/2 c; hams, 7 1/2 c.  
Lard, new, buying at 2 1/2 c; selling at 2 3/4 c.  
WHEAT—Nominal, buying at \$1 to \$1.10 for white and amber; red, 80c to \$1; selling, per car loads at \$1.50 to 25 per bushel.  
CORN—New, loose, 47 1/2 c; sacked, 52 to 53 c.  
HAY—No demand; buying, 30c to 31 c; selling, 40c.  
POTATOES—Loose, scarce, 80c to \$1.00.  
HATS—But of no demand; buying, 25c to 30c; selling, 40c.  
DRIED FRUIT—Apples firm, 1 to 1 1/2 c; peaches, 1 1/2 c; berries, 1 1/2 c.  
NOMINAL—Country extra, buying, \$2.25 to 2.50; selling, \$2.50 to 2.75; family, buying, \$2.50; selling, \$2.75 to 3.00.  
FEATHERS—Prime, 24 to 25 c; mixed, 25 to 30 c.  
BUTTER—Active, medium, 1 1/2 c; good to prime, 1 1/2 c.  
EGGS—Buying dull, 8 1/2 c; selling, 9 c.  
Wool—No demand.  
APPLIES—Green, 75c to 1.00 per bushel.  
RYE—No demand.

**Wholesale Grocery Market.**  
KNOXVILLE, May 13.  
Coffee—11 1/2 to 12 1/2 c; Very Good, 12 1/2 to 13 c; Prime, 13 to 14 c; Extra, 14 to 15 c; O. G.
